

How to Make a Face Tag Toy

Use kit materials provided by Gently Hugged and your Poly-fil to make this cute and useful toy. This sensory toy will decorate the Gently Hugged bag and help the baby develop hand-eye coordination and explore textures.

Step-by-Step Instructions

You Will Need

- Face Tag Toy Kit from the Gently Hugged Trading Post
- Sewing Machine
- Needle and Thread
- Scissors

Separate the kit into like materials. Each kit makes 5 toys.

One toy requires:

Face circle

Backing circle

1 uniquely colored handle ribbon

4 5/8" ribbons

10 3/8" ribbons, 5 each of two colors

Fold the handle ribbon in half and pin at 12 o'clock, as marked, to the inside of the face matching edges.

Fold each 5/8" ribbon in half and pin at the fabric marks to the inside of the face matching edges.

Fold each 3/8" ribbon in half and pin one of each color between the 5/8" ribbons and the handle ribbon to the inside of the face matching edges.

Baste ribbons to face circle with 1/4 seam allowance.

Place the backing circle on top of the face circle with right sides together and ribbon tabs inside. Pin together and sew 1/2 seam allowance, leaving 2" opening to turn right-side out.
